Applications currently being accepted for the Tourism Development Authority

The Town of Burgaw is currently accepting applications for two (2) vacancies on the Town of Burgaw Tourism Development Authority (TDA). Applicants must be active in the promotion of travel and tourism in the Town of Burgaw. These are volunteer positions with no compensation. Applications may be downloaded on the town website at www.burgawnc.gov or picked up at Town Hall, 109 N. Walker Street. Applications must be submitted to the Town Clerk at kwells@burgawnc.gov or dropped off at Town Hall by 5:00 PM on Friday, September 3, 2021.

New rates to reflect on utility bill due September 10

The Town of Burgaw has not increased water and sewer utility rates since 2015. The costs of operations, maintenance, and sewer treatment continue to increase from year to year. With contractual costs increasing for the treatment of our sewer and to keep our entire system properly maintained, the Board of Commissioners approved water and sewer rate increases with the adoption of the FY 2021-2022 budget. A new stormwater utility fee was also approved in the budget. See insert within the newsletter for more information about the stormwater utility fee. The new rate schedules can be found on our website at burgawnc.gov/budget. The new water and sewer rates, with the addition of the stormwater utility fee, will be reflected on the utility bill due September 10th, which will include usage between mid-July and mid-August.

Planning & Zoning Board ETJ Member applications now being accepted

The Town of Burgaw is currently accepting applications to fill one extraterritorial jurisdiction (ETJ) position on the Planning & Zoning Board. Applicant must reside within the town’s ETJ. For more information, please contact the Planning Director at 663-3451. Applications may be downloaded on the town website at www.burgawnc.gov or picked up at Town Hall, 109 N. Walker Street. Applications must be submitted to the Town Clerk at kwells@burgawnc.gov or dropped off at Town Hall by 5:00 PM on Friday, September 3, 2021.

What’s

The ADA Transition Plan is a comprehensive plan for improving access for individuals with disabilities to Town facilities, parks, programs, services, activities, and events. It is part of the Town of Burgaw’s continued efforts to welcome and serve all members of the community. By updating and implementing the Transition Plan, consistent with the ADA, Town services and facilities will become more comfortable, welcoming, and accessible to everyone.

The Town is seeking input from individuals with disabilities, patrons, caregivers, organizations, and agencies that support individuals with disabilities as well as from interested individuals with experience in accessibility needs and best practices. This community involvement will help the Town with its self-evaluation process and better enable us to address and prioritize current and future accessibility needs.

The Town and its consultants have prepared this survey to help evaluate community perspectives on accessibility to Town programs, services, and facilities.

The Town of Burgaw is asking for your input by completing this questionnaire that addresses accessibility of services and activities offered to the public. Examples include: obtaining a permit, paying a fee, participating in a recreational program, or attending a public meeting. All responses are subject to becoming public record.

The purpose of this questionnaire is to gather information on how Town services are, or are not, accessible to people with disabilities. The goal is that each service is readily accessible to and usable by persons with disabilities.

The survey will be available through September 3, 2021.

What is Stormwater?

Stormwater runoff is excess rainwater that runs off from land surfaces during and following rainfall. A certain amount of rainfall will naturally soak into the ground, particularly if the land cover is vegetated or has a tree canopy. Before land is developed for beneficial purposes, a significant portion of rainfall soaks (infiltrates) into the ground, thereby resulting in much less surface runoff. In developed conditions, however, less of the rainfall can soak into the ground and surface runoff generally increases. Increased runoff contributes to higher peak flows in drainage systems and receiving streams, as well as a greater volume of runoff. Higher peak flows and greater volume contribute to urban stormwater management concerns, including flooding safety hazards, property damage, soil and stream erosion, and impacts to surface water quality and stream health.

Why use "impervious area" in determining stormwater charges?

The billing of all properties (residential or commercial) is based on impervious area. Impervious area is a term used to refer to hard surfaces on a property that do not allow rain to soak into the ground. Roofs, garages, carports, storage sheds, commercial buildings and concrete, gravel, or asphalt driveways, sidewalks, parking lots, and patios are all considered impervious areas.

The Stormwater Fee structure reflects the amount of runoff that each individual property contributes to the community's overall stormwater runoff. The more impervious surface area on a property, the greater the amount of stormwater that runs off into our culverts and streams, thus the greater the demand on the drainage infrastructure. The fee is set up so that properties that produce more runoff are assessed a greater stormwater fee.

Who has to pay the stormwater utility fee?

Beginning July 1, 2021, all owners or tenants of property within the Town Limits of Burgaw will be charged a stormwater fee. Properties outside of the Town’s corporate limits are not subject to the fee.

How often are customers billed?

Stormwater Management Utility customers are billed monthly on the same bill as their water and sewer services. Customers who do not receive water and sewer services from the Town will receive a stormwater utility bill on the same monthly billing cycle.

How to determine your Stormwater Management Utility Fees

**Single-family Properties**

All Single Family Detached Properties Shall be Billed for One (1) ERU per Month. $2.50

**Commercial, Institutional, Industrial, and Multi-family Properties**

Based on ERU Calculation of Impervious Surface $2.50 / ERU

2,400 sq ft of Impervious Surface = 1 ERU

**EQUIVALENT RESIDENTIAL UNIT (ERU)** - Two thousand four hundred (2,400) square feet of impervious surface.

**IMPERVIOUS SURFACE AREA** shall mean developed areas of land that prevent or significantly impede the infiltration of stormwater into the soil. Typical impervious surface areas include, but are not limited to: roofs, sidewalks, walkways, patios, swimming pools, private driveways, parking lots, access extensions, alleys and other paved, engineered, compacted or gravel surfaces containing materials that prevent or significantly impede the natural infiltration of stormwater into the soil.
