Note: The National Emission Standards for Hazardous Air Pollutants (NESHAP) Regulations Require that you contact them at (919)303-5950 at least 10 days prior to the demolition of any facility or building, whether the facility or building was found to contain Asbestos or not. Demolition notifications & asbestos removal permit applications are to be submitted using the application for (DHHS-3768). This form can be found on the web site shown below. Note: Obtaining a demolition permit from the NHC Inspections Department does NOT satisfy or meet the notification requirements of the HHCU (Health Hazards Control Unit). Keep in mind hat an asbestos survey is required by a NC accredited asbestos inspector prior to any renovation or demolition of a facility. Please see the Asbestos Web Site <http://www.epi.state.nc.us/epi/asbestor/ajmp.html>
